

Using OpenVPN File on Android

1. Install OpenVPN App

- Go to the Play Store and Search for **OpenVPN Connect**.
- Download **OpenVPN Connect** on your Android device.

2. Email the roadwarrior **.ovpn** file from your RemoteVPN account.

3. If your device does not recognize the **.ovpn** file, download the file to your Android device.

- Select the **.ovpn** file
- Save to **Device**

Application Note – Using OpenVPN on Android

- Go to Downloads and click on **.ovpn** file
 - Click on the **.ovpn** file and select the OpenVPN Profile icon.
 - Select **Documents** as file type
 - Select OpenVPN Profile icon

- The Imported Profile option opens up in the OpenVPN app. Select **Add**.

Application Note – Using OpenVPN on Android

- Click **OK** if a pop up appears requesting permission to import the .ovpn profile

Enter your password if prompted.

- The **Profiles** now show the newly added OpenVPN profile.

Application Note – Using OpenVPN on Android

- Click on the slider next to the OpenVPN profile name. The VPN connection will become active, and the slider will turn green. It will also show the connection statistics.

- Click the slider again when you need to disconnect. Click **OK** if a Disconnect VPN pop-up appears.
